TECHNICAL CHARACTERISTICS

power supply – AC 230V, 50Hz  
Ingress Protection Rating – IP 54  
dimension - 85 x 5mm  
class 2

One switch can manage several radiators in the same space on the condition that the total heat output does not exceed 2300w (10A).

RAL COLOURS: colour subject to confirmation.

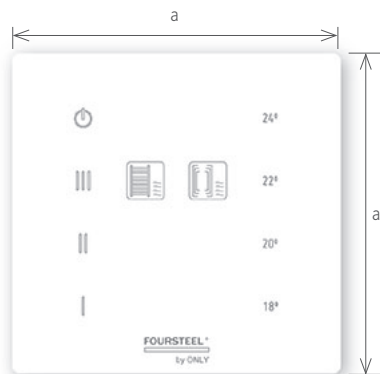

WHITE: RAL 9016 satin (Standard version)

**GUARANTEE**

The warranty is 2 years on presentation of the corresponding invoice.

All performance calculations of the company Foursteel® are based on a Delta T of 50 ° C.  
 For another Delta T value, the output of the radiator should be multiplied by the appropriate correction factor.

\* Delta T is the difference between the desired room air temperature (in doubt use 20 °C for calculation) and the temperature of the water circulating in the radiator.

Note: Values can vary up to about 10%.
